**\*Criteria for Registry Programs Board Approval of AAR Analysts:**

1. The organization’s application shall be reviewed and approved by AAR Reviewers and must meet all the requirements of the most current AAR Policies and NIOSH 7400 method.
2. An analyst’s application shall be reviewed and approved by AAR Reviewers and must have completed two (2) consecutive AAT rounds with no greater than 2 outliers combined.
3. After the round in which an analyst gains proficiency, the analyst will go on ballot for RPB approval. Board approval letters are sent to the analyst approximately 2 weeks after the results for the round are posted / mailed. Board approval is not granted until after the ballot has closed and is approved.

**Legend:**

- “--” denotes that the analyst did not submit any data (resulting in 4 outliers).
- “~” denotes that a sample ID or sample result was not within acceptable range.
- “X” denotes that the analyst was not enrolled in the specified round at the time of testing.
- “E” denotes an approved excused absence.
